MEMOREX

Management
Conference

Welcome to the Second Annual Management Conference.

The purpose of this meeting is to help us develop our ability to win against worldwide competition. Our theme is Competitive Excellence. Winning against competition requires a standard of excellence in everything we do. Our products, quality, sales and service and management skill must be better than anything competition can offer to our customers.

During the next three days we will have the opportunity to review 1975 accomplishments and share our plans and objectives for 1976. We can also develop a broader understanding of our business, promote improved teamwork, build confident, winning attitudes and have a little fun.

When we return to complete the challenges of 1976 and share this experience with our associates, let's be sure that the standard of competitive excellence is the goal of all employees throughout the year.

Sincerely,

A handwritten signature in blue ink that reads "R. C. Wilson". The signature is fluid and cursive, with the first letters of the first and last names being capitalized and prominent.

R. C. Wilson

Attendees
