

Complements of Memorex: total on-line storage capability.

Our 100, 200 and 317.5 megabyte Disc Storage Systems. Complementary drives, offering expanded capabilities and improved cost-effectiveness in temporary and resident on-line storage.

As you would expect, these Memorex 3670, 3675 and 3650 Disc Systems are fully 3330 and 3350 compatible. And as you've come to expect from Memorex, our Disc Systems also offer some exclusive advantages.

Our 3675, for instance, features heads that fly 50% higher—virtually eliminating head crashes. Our 3650 offers an exclusive data security feature for processing sensitive information, and it also offers small and medium 370 users improved cost-effectiveness with native mode DOS/VS support.

These systems represent our highest achievement to date in their respective technologies. They serve to underscore our commitment to Memory Excellence. And they set a standard of value by which to judge storage systems by any other name.
