

San Jose Mercury News (CA) - October 21, 1986 - 7E Business

MEMOREX UNVEILS NEW DRIVE Memorex Corp. of Santa Clara announced a range of products, including its most powerful disk drive yet. The Burroughs subsidiary said it is now the only company that makes peripheral equipment to work with every International Business Machines Corp. mainframe in the general business world. But analysts noted that several competitors already have announced disk drives as powerful as Memorex's new dual-density 3682, which will be shipped in volume in the first quarter of 1987. ...
