

Memorex Corporation

Word Processing Division  
1200 Memorex Drive  
Santa Clara, CA 95052

Memorex is a leading worldwide supplier of high-technology information processing products. It continues to grow and expand with a firm commitment to superior quality and excellence.

This is exemplified by Memorex® premium xerographic toners and developers that are equal to or superior in copy quality and efficiency to those manufactured by Xerox and IBM. Memorex toners and developers form a unique development system. Memorex developers contain CAB\*. CAB is what makes Memorex-supplied development systems last longer. In fact, we guarantee, in writing, up to 50% more developer life than Xerox. Memorex will give you:

- Crisper, cleaner copies
- Darker images
- Higher contrast
- Greater resolution and clarity
- Increased efficiency—up to 50% more copies from Memorex Developers
- Complete equipment compatibility
- Written warranty—consistent and guaranteed reliability

\*CAB: cellulose acetate butyrate

## Resolution and Clarity

Original

Memorex

Competitor

The photomicrographs (magnified 10×) demonstrate the superior copy quality of Memorex premium toner and developer. The sharp resolution, distinct clarity and dark image are the result of Memorex's stringent toner particle size control. Eliminating undersized particles means less background on your copies. Keeping out oversized particles gives you sharper edge definition. Proper particle size distribution results in solid, black characters. The special coatings on Memorex developers contain CAB. CAB is what makes Memorex-supplied development systems last longer. In fact, we guarantee, in writing, up to *50% more developer life than Xerox.*

## Memorex Premium Toner Reorder Numbers And Packaging

FOR USE IN:	MEMOREX REORDER NUMBER	UNITS PER CARTON	NET WEIGHT PER CARTON	CARTONS PER SHIPPING CASE	PRICE
<b>Xerox Copiers</b>					
2400, CFP, 3600, 7000, 7700	76000000	Eight 4-oz. bottles	2 lbs.	6
